

I would hate to see Low Power FM (LPFM) expanded at the sacrifice of FM translator service. I am a K-LOVE supporter & listener. K-LOVE needs to stay on the air in its present capacity. It has a tremendous effect on listeners. For example, I recently attended the funeral of a 12 year old boy whose mom's said it was while her son was listening to K-LOVE that he asked Jesus to come into his life. Having K-LOVE available across the nation is a way to bring hope, encouragement and inspiration to a world that needs a positive influence. I listen to K-LOVE on 89.9.
